LAS CUEVAS

DOVE SEASON 2024

The Hunt

Many wing-shooters consider México to be the premier dove hunting destination in North America, especially because of its extremely generous dove limits (or the lack thereof) and plentiful dove populations.

Las Cuevas' landscape is diverse, with big mesquite trees, cactus flats, creeks and open fields. All of our hunting areas are inside the ranch, which means we'll only be driving five to ten minutes max to each spot.

Each hunter will be assisted by his/her own bird-boy to pick up birds, provide refreshments and help with everything during the hunt. We offer 3 day hunts with 5 hunting sessions total.

Being avid hunters ourselves, and having shot dove in Texas, Argentina, and all over México, we are now proud to open Las Cuevas to all dove-hunting enthusiasts.

The Experience

Just like with our deer hunting operation, we will be with you from the moment we pick you up from the airport, until we take you back. By "we", we mean us, the owners. We live and work here all year and are involved in everything from the meals we cook, to the accommodations and hunting. We only take groups of 4-6, which means your group will be the only one hunting during your stay.

Fishing in some of our bass ponds is something we can do during the day when we're not hunting, as well as relaxing with a drink and eating authentic Mexican home-cooked meals.

We're hunters, ranchers and family men. We've travelled and know what's expected of a first class hunting lodge. What is most important to us is to deliver a once in a lifetime hunting experience where we can meet new people along the way that will eventually become life-long friends.

The Lodge

Main Lodge

The main lodge is where hunters get to hang out, and where we have all of our meals. Here's where the magic happens on the mesquite grill and where hunting fables about how millions of birds were shot get told.

Our lodge has wifi, directv, netflix, etc., so you can sit back, cool down and relax after the hunt.

In a rustic, yet comfortable setting, the main lodge provides an ideal atmosphere for hunters and visitors alike.

The Lodge

Hunter's Lodge

Built for comfort, the Hunter's Lodge is equipped with everything you will need during your stay, in a more private setting.

The lodge has a minibar, wifi, directv, netflix, etc.

Some of the rooms have queen beds and some have tiwns.

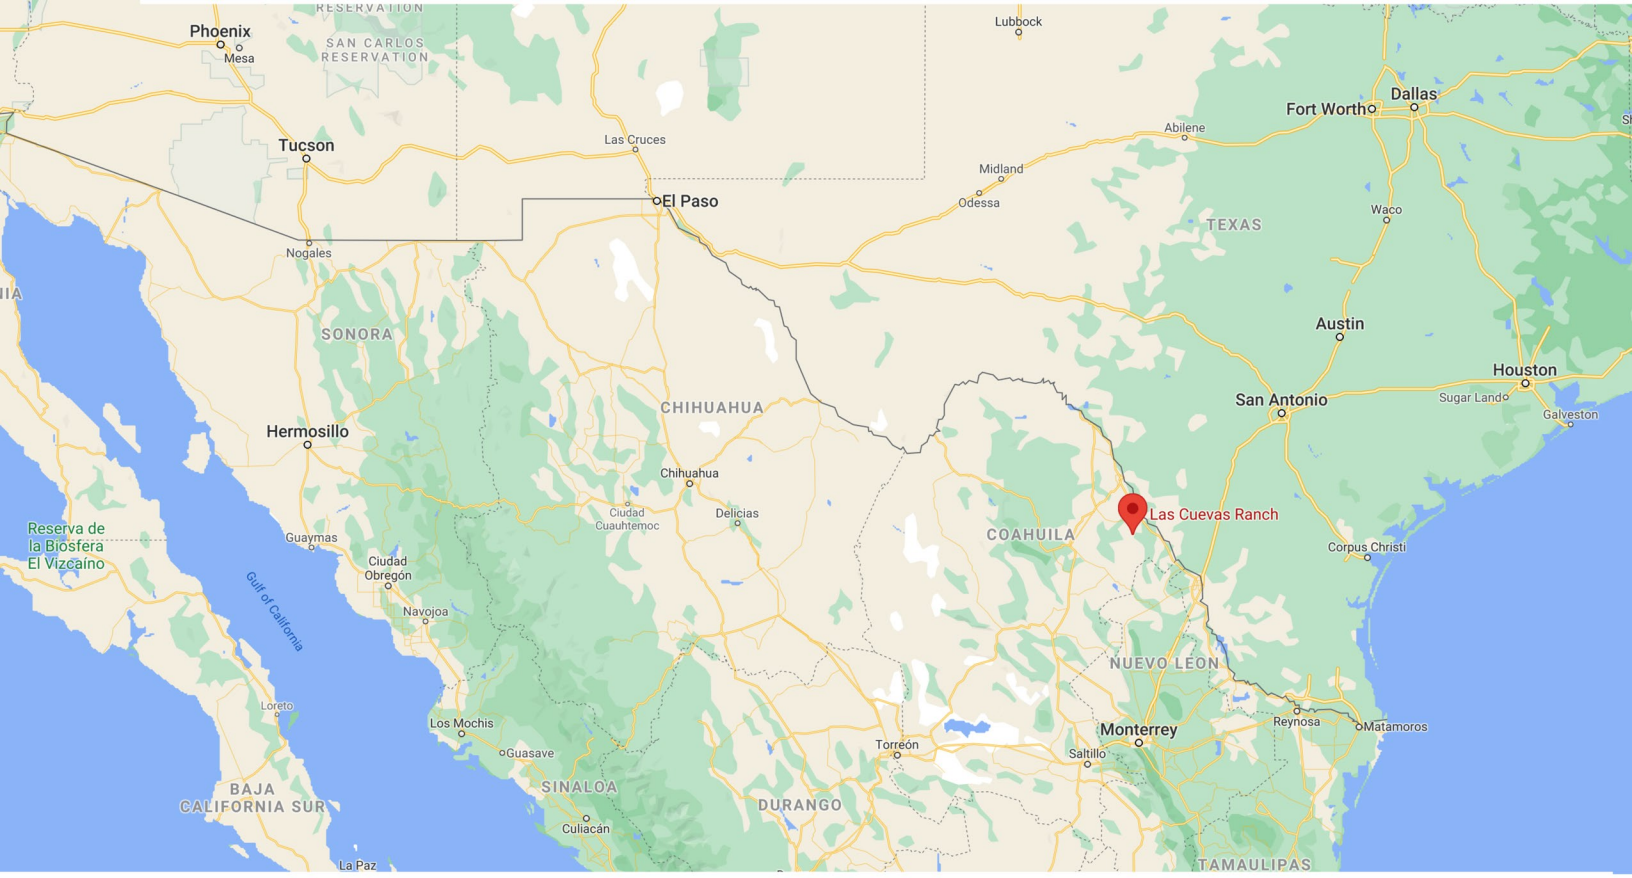

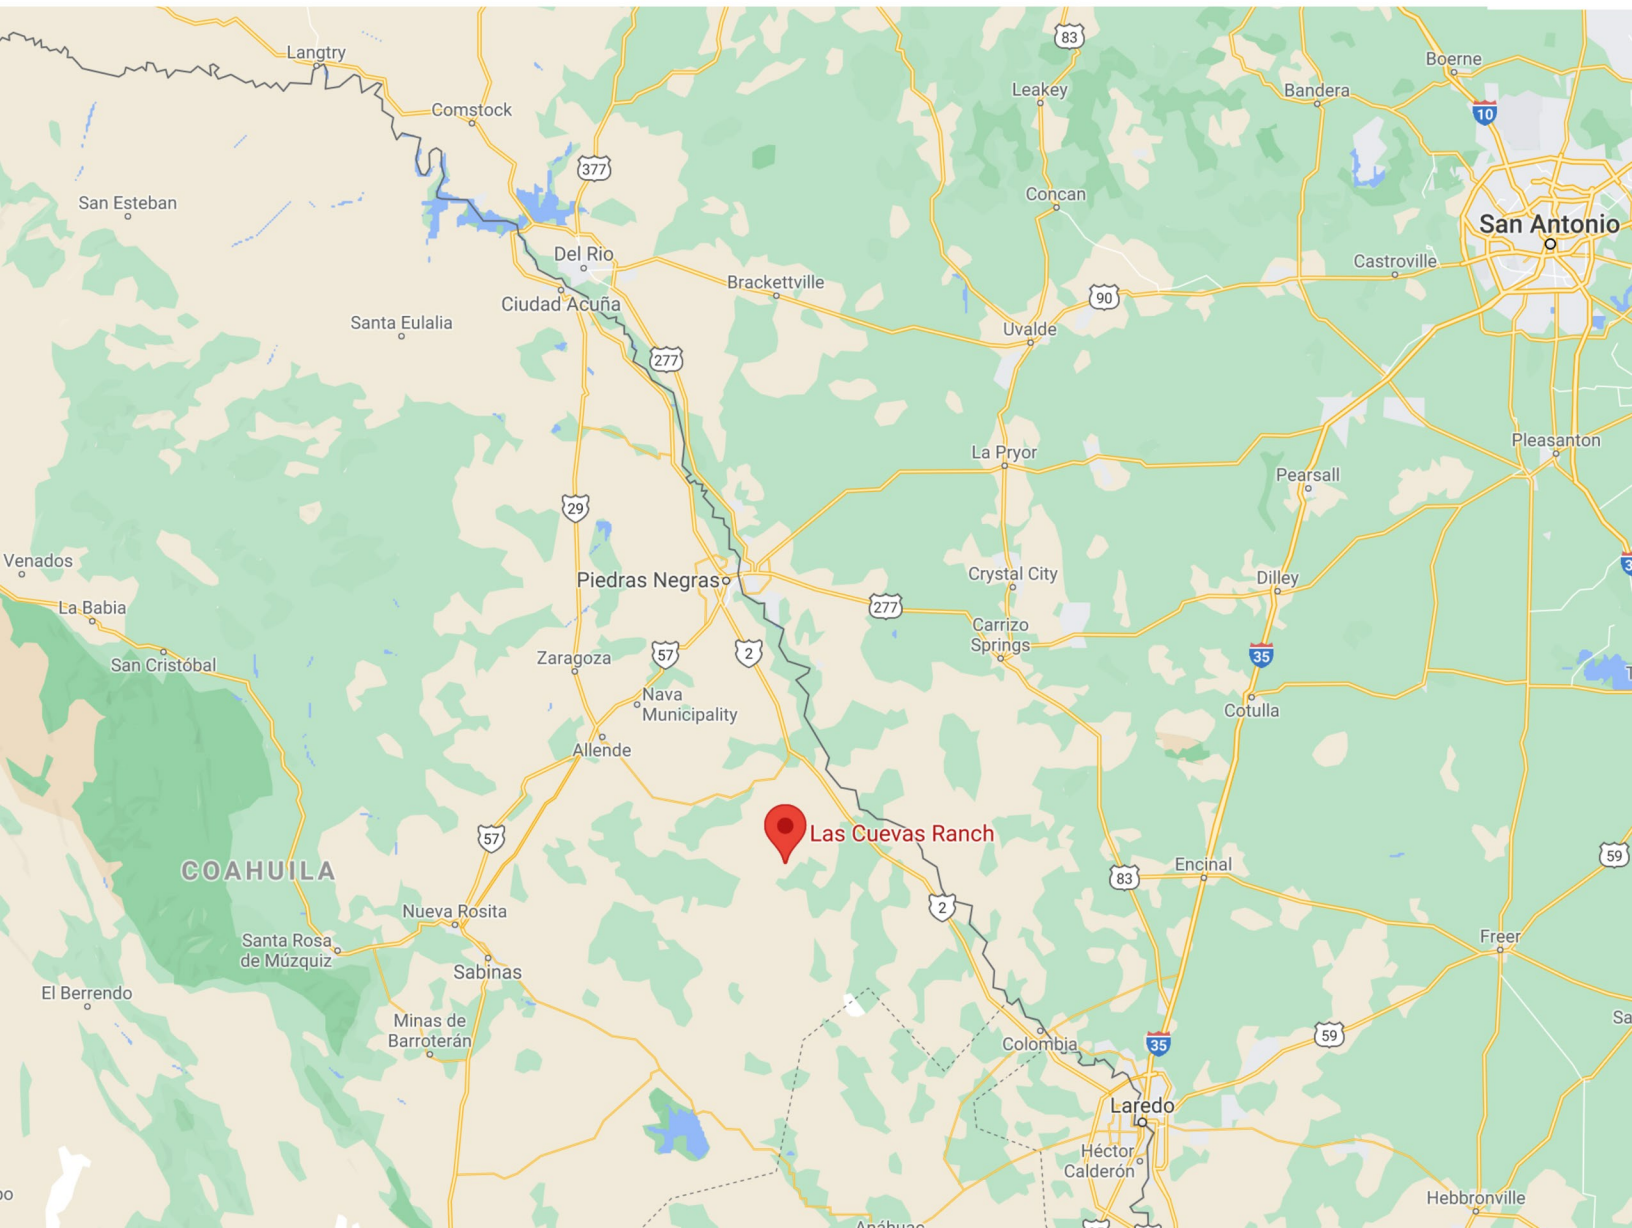

Getting There

Las Cuevas is located approximately 2 hours away from Laredo International Airport in Laredo, TX. We will personally pick your group up at the airport and drive to the ranch. After crossing the border at the Colombia International Bridge, it is roughly a one and a half hour drive to Las Cuevas. We can also pick you up at Eagle Pass, TX.

Las Cuevas has a private grass runway that is kept in perfect condition. Plenty of King Airs, Pilatus, Cessnas and other propeller-powered planes have landed here. Flying from Eagle Pass, TX to the ranch is only a 15 minute flight. Flying from Laredo, TX takes about 25 minutes.
